DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Sarcia (US Patent No. 4,841,732). Sarcia discloses an apparatus for producing and storing a chemical liquid and comprising a double cylindrical structure with an inner and outer wall structure and whereby the space there between is inherently a substantially vacuum space (see figure 1).

Allowable Subject Matter

Claim 10 is allowed over the prior art of record.

Claims 2-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
